CRDHA ANNUAL CONTINUING COMPETENCE EVENT
DENTAL HYGIENE DIAGNOSIS

MAY 2-4, 2019 | DOUBLETREE WEST EDMONTON

ONLINE REGISTRATION OPENS FEBRUARY 18, 2019
WATCH YOUR INBOX FOR YOUR INVITATION

tinyurl.com/CRDHA-Members  tinyurl.com/CRDHA-Students  tinyurl.com/CRDHA-NonMembers
The College of Registered Dental Hygienists of Alberta (CRDHA) invites you to their 2019 Annual Continuing Competence Event (ACC Event) at the DoubleTree by Hilton Hotel in West Edmonton.

In Alberta, the Health Professions Act (HPA) and the Dental Hygienists Profession Regulation govern the practice of dental hygiene. Schedule 5 of the HPA states:

“3] In their practice, dental hygienists do one or more of the following: a) assess, diagnose and treat oral health conditions through the provision of therapeutic, educational, and preventive dental hygiene procedures and strategies to promote wellness.”

In keeping with this statement, the chosen theme for the 2019 ACC Event is Dental Hygiene Diagnosis (DHDx), which is also recognized as one of the five elements of the systematic process of dental hygiene care, along with Assessment, Planning, Implementation and Evaluation (ADPIE).

DHDx will provide an educational forum to explore the processes of dental hygiene diagnosis which are intrinsic to development of a dental hygiene treatment plan tailored to the individual needs of the client.

Complete your online registration before midnight MARCH 31, 2019 to enter your name in the Early Bird Draw for a chance to win back your 2019 ACC Event Registration Fees.

Sessions

THURSDAY PRE-EVENT

Orofacial Myology - Combining Our Views
Vera Horn & Karen Pollock

This session will provide information on how dental hygienists can work collaboratively with other health professionals to address treatment for symptoms related to oral and facial resting postures and swallowing for clients of all ages.

FRIDAY

Dental Hygiene Diagnosis – Integral to the Dental Hygiene Process of Care
Kandis V. Garland

This session will get you excited about your role in the dental hygiene process of care. It will discuss the key roles critical thinking, motivational interviewing, and assessment skills play in creating an accurate dental hygiene diagnosis ultimately leading to development of a treatment plan. Included is a discussion of how adults learn, the history of motivational interviewing with techniques for improved communication skills with clients, and the importance of thorough assessment skills. Accurate dental hygiene diagnosis is critical for creating a comprehensive treatment plan that best serves the patient and clinician. Key take home strategies for improving these skills will be provided to participants.

Back to Basics: Oral Radiography
Dr. Meredith Brownlee

This lecture will address the basics of oral radiography with regard to the practice of Alberta dental hygienists to ensure appropriate patient care in the field of radiology with its inherent challenges. Topics covered include a discussion of basic radiographic physics and projection geometry, image prescription, radiographic analysis and diagnosis of common pathologic entities.

Dental Caries in the Modern World: Where do You Fit?
Dr. Alan J. Kilistoff

We are on the verge of a major paradigm shift in our understanding of caries and its treatment. This interactive presentation will review what is old and what is new in caries knowledge, current treatment modalities, as well as potential changes in the near future. Please bring your questions as this will help tailor the presentation to your needs.

From Paper to Practice: The New Periodontal Disease Classification
Dr. Saljae Aurora & Dr. Robert Straga

Diagnosis is a critical first step to effective treatment of any disease. The understanding of the pathophysiology of periodontal disease has grown dramatically since the last comprehensive diagnostic system for periodontal disease was released in 1999. This presentation will review the new “Classification of Periodontal and Peri-Implant Diseases and Conditions” released in 2018. This presentation will focus on the clinical application of its new staging and grading system and how it facilitates assessment of a client’s current disease based on clinical findings and an informed prediction of future disease progression and risk based on a holistic patient assessment that is central to creating an appropriate and personalized treatment plan for management of each periodontal patient.
Advance Your Ultrasonic Proficiency for Periodontal Debridement – A Unique Workshop
Cheri Wu
Based on your dental hygiene assessment, are you confident with your ultrasonic knowledge, insert selection, sequencing and adaptation but want to move to the next level of ultrasonic confidence? This fast-paced workshop combines cutting-edge teaching methods with active magnetostriuctive ultrasonic equipment to focus on complete calculus removal and biofilm assault. Build upon your current knowledge of sequencing, adaptation, and activation for periodontal debridement with a focus on sound ergonomics and minimization of aerosols. Achieve an improved level of clinical confidence with curved inserts in furcations and concavities. If your goal is to improve non-surgical periodontal clinical outcomes for your patients and reduce stress on your body – this course is for you! [Friday AM, Friday PM or Saturday AM]

ABC’s of Dental Implant Maintenance
Dr. Saljae Aurora
With the increased prevalence of dental implants, it is becoming ever more important for dental hygienists to be competent with the assessment of dental implants and the management of plaque and calculus biofilm accumulations on the surfaces of dental implant fixtures and their associated prosthetic structures. This breakout session will provide an interactive discussion of the unique characteristics of the dental implant periodontium and how to examine a dental implant and identify the signs and symptoms of peri-implant disease. Discussion will round out with the various management strategies for maintenance of dental implants; including treatment options for diseased implants. [Friday AM or Saturday AM]

SATURDAY

Treatment for the Medically Complex Dental Patient - Assessment and Protocols
Dr. Michael Glick
Oral healthcare professionals play an important role as primary healthcare providers. They need to screen and monitor patients for underlying medical conditions, and are required to render dental care to an array of medically complex patients. Pertinent medical assessment of patients has become an essential part of dentistry, as even the most common medical problems may require modifications to routine oral healthcare. This presentation will simplify this task by reviewing common medical disorders, and explaining and providing protocols for safe and appropriate dental hygiene care for patients with complex medical conditions.

Advance Your Ultrasonic Proficiency for Periodontal Debridement – A Unique Workshop
Cheri Wu
Repeat of Friday’s workshop

ABC’s of Dental Implant Maintenance
Dr. Saljae Aurora
Repeat of Friday’s breakout session

Antibiotics in Periodontal Therapy - Why, When and How?
Dr. Monica Prasad Gibson
This presentation will focus on the importance of case selection when prescribing antibiotics for periodontitis patients. Indications, side effects, dosages and best suited drugs will be discussed. Local drug delivery systems for antibiotic dosages will also be covered.

Personal Wellness and a Healthy Workplace Culture
Kelly Sloan
Subjects addressed in this breakout session include defining wellness and what people want in a healthy workplace, identifying and stopping bad behavior [even your own], kindness in the workplace, making your own positive contribution to healthy workplace culture, and finding courage to do that and more through fun and adventure inside and outside of work.

Independent Practice Mixer - Redux
CRDHA Practice Advisors Alysha Bailey & Marthe Benoit plus Guests
Back by popular demand from 2018, this mixer is for the dental hygienist thinking of making the jump to independent practitioner or looking to take their existing independent practice to the next level. This session is a mixture of formal presentations interspersed with round table discussions with industry and business advisor guests.

Critical Thinking and How to Assess the Literature - A Skeptics Guide Part 1 and Part 2
Dr. Michael Glick
With a never-ending onslaught of clinical and other scientific information from multiple sources, oral health professionals need to become more accomplished integrative and critical thinkers. Clients also have access to up-to-date medical information and challenge their oral health care providers to use this information for their benefit. This presentation will show how published data cannot always be relied upon, and highlight how to interpret, challenge and use published information.

DHDx All Wrapped Up
Kandis V. Garland
This conference wrap-up session will provide a discussion of barriers and obstacles to accurate dental hygiene diagnoses and provide strategies participants can use to overcome these obstacles in creating dental hygiene treatment plans. It will include a brief review of the highlights of the conference sessions and serve to energize participants to continue growing, learning and improving their dental hygiene diagnostic skills.
Speakers

Saljae Aurora
BSc, DDS, MSc, Dip Perio, FRCD(C)

Saljae Aurora received his BSc degree from the University of Alberta in 1988 followed by a DDS degree in 1992. He practiced general dentistry prior to completing a Masters of Science degree and Diploma in Periodontics at the University of British Columbia in 2009. In addition to maintaining a private practice clinic in Edmonton where he provides periodontal and dental implant treatment, Dr. Aurora served as Clinical Assistant Professor at the School of Dentistry at the U of A from 2011 to 2015 as well as Clinical Assistant Professor at the University of British Columbia from 2012 to the present. Since 2012 he has been an examiner for the Royal College of Dentists of Canada and participates in their exam development. Currently, he serves as Co-President of the Alberta Academy of Periodontics.

Alysha Bailey
Dip DH, BScDH

Alysha Bailey is a Practice Advisor for the CRDHA, a position she has held since 2016. In this role, she assists CRDHA members with questions about topics such as the CRDHA Practice Standards and Code of Ethics, restricted activities of dental hygienists in Alberta, and independent dental hygiene practice. She writes an advice column for the CRDHA newsletter. Alysha has been practicing dental hygiene for over 10 years, having graduated from the University of Alberta Dental Hygiene Program with her Diploma in 2008 and Bachelor of Science degree with Dental Hygiene Specialization in 2009.

Marthe Benoit
Dip DH, BScDH

Marthe Benoit is a CRDHA Practice Advisor, a position she has held since May 2014. Some of her duties include providing guidance and advice to CRDHA members regarding matters relating to CRDHA Practice Standards, guidelines, competencies and the CRDHA Code of Ethics. Marthe writes a practice advice column for the CRDHA InTouch newsletter and liaises on specific CRDHA special projects. Over the span of her career Marthe has practiced in varied locations and settings, including living and practicing in the high Arctic for four years. Prior to assuming her Practice Advisor position, Marthe volunteered as a CRDHA Councillor for one year. She completed her Bachelor of Dental Science Degree from UBC in 2014.

Meredith Brownlee
BSc, DMD, MDS (OMFR), FRCD(C)

Meredith Brownlee earned her DMD from the University of Manitoba in 2004 and began her dental career providing care for northern indigenous people of Manitoba from 2004 to 2011 in numerous isolated communities. After seven years in private practice, Dr. Brownlee undertook her training in Oral and Maxillofacial Radiology at University of Connecticut, obtaining her Master of Dental Science in 2014. Dr. Brownlee joined the Dental Diagnostic and Surgical Sciences department of University of Manitoba as an Assistant Professor in 2014. She instructs undergraduate and graduate dental and undergraduate dental hygiene programs in the discipline of Oral and Maxillofacial Radiology. Dr. Brownlee also conducts a part-time practice of Oral and Maxillofacial Radiology imaging referral service.

Kandis V. Garland
RDH, MS

Kandis V. Garland is an Associate Professor in the Department of Dental Hygiene at Idaho State University in Pocatello, Idaho. She is the First-Year Clinical Coordinator, the Infection Control Coordinator and serves as a Graduate Faculty member. In 2017 she received the Organization for Safety, Asepsis and Prevention (OSAP) Emerging Leader award. She served a five-year term on the American Dental Association Dental Hygiene National Board Test Construction Committee. Ms. Garland’s research focuses on infection control and dental hygiene competency and has been published in the Journal of Dental Hygiene, the Journal of Dental Education, and Dimensions of Dental Hygiene, Mentor Magazine, Decisions in Dentistry, and Access Magazine. Kandis has presented her research at regional, national, and international meetings. She serves as a manuscript reviewer and as an infection control “Ask the Expert” Columnist for Dimensions of Dental Hygiene. Additionally, she works as a clinical dental hygienist and provides infection control consulting services.

Monica Prasad Gibson
BDS, MS (Periodontics), PhD, FRCD(C)

Monica Prasad Gibson is Co-Director of the Graduate Periodontics program at University of Alberta School of Dentistry. She received her BDS degree in India and went on to complete a Periodontics residency and Master’s of Science degree at the Ohio State University. Her PhD and post-doctoral training in Biomedical Sciences was completed at Texas A&M Health Sciences Center, Baylor College of Dentistry in Dallas, Texas. Dr. Prasad Gibson has published several articles and has given presentations on bone and dentin mineralization process. She has also contributed to book chapters and journal cover features.

ONLINE REGISTRATION OPENS FEBRUARY 18, 2019

tinyurl.com/CRDHA-Members  tinyurl.com/CRDHA-Students  tinyurl.com/CRDHA-NonMembers
Michael Glick
DMD

Michael Glick is Professor, School of Dental Medicine, University at Buffalo, State University of New York. Dr. Glick has authored more than 300 publications, including original research articles, editorials, and book chapters, and has edited and co-edited 8 text books. He has presented more than 600 invited lectures and continuing education courses within the US and internationally. Dr. Glick chaired the FDI World Dental Federation’s Strategic Plan in 2012; is co-chair for FDI’s Vision 2020 Think Tank; and is the global dental representative to the Non-Communicable Diseases Alliance. Dr. Glick has received numerous awards for his writings and community engagement, and is past-President of the American Board of Oral Medicine and immediate past Dean, School of Dental Medicine, University at Buffalo. He currently serves, since 2005, as the Editor-in-Chief of The Journal of the American Dental Association.

Alan J. Kilistoff
DMD, FCD, MET, FACD

Alan Kilistoff is Clinical Professor at the School of Dentistry in the Faculty of Medicine and Dentistry at the University of Alberta. Dr. Kilistoff graduated from the University of British Columbia in 1976 with a DMD, and practiced in a private dental clinic for 28 years. He started teaching at the University of British Columbia in 2000, moved to the University of Saskatchewan in 2005, and has been at the U of A since 2012. In 2009 he received a Master of Education Technology degree from UBC.

Vera Horn
RDH, COM®

Vera earned two diplomas, Dental Therapy and Dental Hygiene, from the Saskatchewan Institute of Applied Science and Technology (SIAST) from 1985 -1988. After having children, she began research into Orofacial Myology and found this area of study to be not only fascinating but what she considers to be foundational for proper oral, facial, dental and speech development. In 2009 she became the first Canadian to be recognized as a Certified Orofacial Myologist (COM) with the International Association of Orofacial Myology (IAOM) and joined the IAOM board of examiners in November of 2016. Vera currently works part-time in the fields of dental hygiene and orofacial myology and wishes to continue to share her experiences and knowledge on how these areas are affecting overall health in society.

Karen Pollock
R.SLP, SLP (C)

Karen has been a registered speech-language pathologist in Alberta since 1999. She began her career at Alberta Health Services working with adults in hospital as well as school children from kindergarten to grade 12. In 2007 she transitioned to private practice, starting out with a few clients here and there and slowly increasing her practice as motherhood and client demand allowed. Private practice has been a dream come true for Karen. It has afforded her the ability to work closely with clients, explore her area of special interest - orofacial myology, and mentor speech-language pathology students at the University of Alberta.

Kelly Sloan
BED, MEd

Kelly is the CEO and Registrar of the College of Registered Dental Hygienists of Alberta. She has over twenty-five years of experience in the non-profit sector including Executive Director and CEO positions with YWCA Edmonton, the Mennonite Centre for Newcomers, Canadian Parks and Wilderness Society, and the Natural Health Practitioners of Canada. Kelly specializes in organizational change, government and external relations, and human resources. She has taught the Human Resources course for MacEwan University’s Executive Leadership Program and facilitated learning programs for numerous non-profit organizations and government departments. She has been recognized for her contributions to community and advocacy for women through different awards including the Alberta Centennial Medal, the Queen’s Golden Jubilee Medal and a National Advocacy Recognition Award.

Robert Straga
BSc, DDS, MSc, Dip Perio, FRCD(C)

Robert Straga received his DDS degree from the University of Alberta in 2004 and his Diploma in Periodontics and Master of Science degree from the University of British Columbia in 2009. Since then Dr. Straga has maintained a private periodontal specialty practice in Edmonton where he also provides dental implant treatment. Additionally, he holds Assistant Clinical Professor positions at the Faculty of Medicine and Dentistry at the U of A as well as with the Graduate Periodontics Program at the Faculty of Dentistry at UBC. From 2015 to 2016 he served as President of the Canadian Academy of Periodontology.

Cheri Wu
RDH, BDSc

Cheri Wu is a RDH with 26 years dedicated to clinical practice and education, including 10 years in non-profit dental care. Cheri graduated with a BDSc (DH) from UBC and was presented with the gold medal for academic excellence. In 2011, Cheri opened her own independent dental hygiene clinic in Victoria, B.C. - ‘Focus On Dental Hygiene’ and holds a faculty position with Camosun College. In partnership with Dentsply Sirona, Cheri presents scientific, evidence-based information and hands-on education for ultrasonic instrumentation and air polishing. Her accomplishments include the 2012 Camosun College Distinguished Alumni Award and the 2014 Barbara Heisterman Award for Innovation and Commitment to Care.

### 2019 Community Connections Showcase

The CRDHA appreciates the support of industry, not-for profit organizations and government agencies that participate in the Community Connections Showcase on Friday, May 3 from 11:30 AM to 5:00 PM. We encourage you to visit their booths.

**Sponsor of “From Paper to Practice: The New Periodontal Disease Classification”**

---

**Sponsor of Cheri Wu’s Ultrasonics Workshops**

---

**Premium Supporters**

---

**Valued Supporters**

---

Be confident when you attend a CRDHA continuing competence program session that your valuable time will be well spent. The program is relevant to dental hygiene practice in a variety of settings. Some sessions may be specific to practicing in Alberta. Each session has been selected for its evidence-based foundation and strength in content. We trust that by participating in these sessions you will be engaged and leave informed and re-energized. This is a tentative program outline only and is subject to minor changes.
Event Details

Online Registration
To attend the event, please register online:

tinyurl.com/CRDHA-Members
tinyurl.com/CRDHA-Students
tinyurl.com/CRDHA-NonMembers

2019 Event Headquarters & Accommodation
DoubleTree by Hilton West Edmonton
16615 109th Avenue NW
Edmonton, AB T5P 4K8
Phone: 780.484.0821
TF: 1.800.661.9804

Hotel Accommodations
For your convenience, a group block of rooms has been reserved from May 2 to 4, 2019 at the event venue.

Group Name: 2019 CRDHA Annual Continuing Competence Conference
Reservation code: CRD

The special room rate will be available until April 8, or until the group block is sold-out, whichever comes first.

Options for booking your accommodation:
- Use the link on the Online Registration platform
- Call the hotel directly at the numbers above

Be sure to have your credit card and the reservation code ready.

Event Registration
The Early Bird registration deadline is midnight March 31, 2019.
Separate registration is required for the Thursday pre-event session.

Full event registration includes Friday sessions, Community Connections Showcase, Council Reception and Saturday sessions. A hot buffet breakfast, buffet lunch and refreshment breaks will be available each full day of the conference.

Single-day registration for Friday or Saturday includes the Community Connections Showcase (Friday only), Council Reception (Friday only), hot buffet breakfast, buffet lunch and refreshment breaks.

Workshop Registration
Registration for the limited attendance workshops is available on a first-come, first-served basis. Please visit the registration website for details.

Registration Deadline
Registration will be accepted on a first-come, first-served basis.
- Online registration will close at midnight April 28, 2019.
- On-site registration may be offered subject to available spaces.

Receipts
Receipts will be issued with confirmation from CRDHA of your ACC Event registration.

Speaker Handouts
In an effort to be more environmentally responsible, printed handouts will not be provided for most sessions. Individual presenters may consent to post their session handouts on the CRDHA Members Sign In website to enable registrants to download and print the handout before the conference begins or after the event. Not all presenters will opt to provide a handout.

Cancellation and Refund Policy
All requests for cancellations and refunds must be received in writing via email to administration@crdha.ca, via fax to 780.440.0544 or via regular mail.
- Refunds, less a $100 (one hundred dollar) administration fee, will be issued on receipt of written requests for refund received before midnight, April 8, 2019.
- Approved refunds will be provided in the manner of the original method of payment.
- Refunds will not be issued for requests received after 12:01 AM, April 9, 2019.
- Refunds will not be issued for non-attendance.

Early Bird Draw
All completed registrations and accompanying fees received prior to midnight March 31, 2019 will be entered in an Early Bird Draw for a chance to win back the CRDHA ACC Event Registration Fee paid by the individual.

For Your Comfort
Please note the temperatures may vary in meeting rooms. Consider dressing in layers and bring a sweater or cover-up.

Child Policy
To avoid unnecessary distractions and as a courtesy to all attendees and speakers, children are not admitted to event sessions. Only infants in a “Snuggie” are admitted. Strollers are not allowed for safety reasons. Please make childcare arrangements to ensure you can meet this request.

Privacy Policy
Information collected by the CRDHA and the secure online event management website is for registration and communication purposes related solely to the ACC Event. Photos, which may be used for CRDHA promotional purposes, will be taken during the event.

Disclaimer
The CRDHA makes every effort to engage presenters who are experts in their fields. Inclusion of these presenters at the CRDHA ACC Event in no way implies endorsement of any product, technique, or service described in the course of their presentations. The CRDHA specifically disclaims responsibility for any material presented.
Registration Fees

The Early Bird deadline is midnight, March 31, 2019. Online registration closes midnight April 28, 2019.
